Demographics and Diversity

The impact of child well-being

On this page: Child population, households, children's race and origin, and English proficiency.

- Community resources devoted to child well-being and family stability can create a blanket of support for children's health, education, and security.
- Racial and ethnic diversity has grown in Pennsylvania. Nationally, diversity is projected to keep growing in the coming decades.
- Children who lack English proficiency can be separated from teachers and classroom activities and fall short on academic achievement tests. As adults, they face greater challenges in the labor market.
