Employment and Unemployment

The impact of employment

On this page: Employment status, by high school-age residents, parents of children under age 18, and parents of young children under age 6.

- Teens who are not in school and not working may face bleak prospects for the future. At a time when critical life decisions are made, unemployment can herald future difficulty in getting and keeping a job.
- Parental employment indicates parents' ability to provide for their children. Without it, children lack health benefits and endure irregular daily routines. Single parents and parents of younger children face particularly daunting daily challenges finding quality, safe child care.

	—Cameron County—		—Pennsylvania—	
	Number	Percent	Number	Percent
High School-Age				
• Ages 16 to 19, not working, not in school	21	6.7%	46,957	7.0%
