Source: Federal Office of Head Start and State Departments of Education and Public Welfare, Office of Child Development and Early Learning.

This table shows the number of slots available, not the number of children enrolled. Throughout the year, multiple children could use one slot. Therefore calculating the percentage of children served is not advised.

The Public School Pre-K Enrollment figures are preliminary as of 9/16/08. The final Enrollment Report has not been released by the Pennsylvania Department of Education.
