### **CHILD ABUSE AND NEGLECT**

Child maltreatment is a serious problem that has grave and costly consequences for the child, his or her family and the community at-large. A child who has experienced abuse and neglect is more likely to have social, emotional and physical health problems and perform poorly in school.

## **IN-HOME SERVICES**

In-home services are designed to strengthen families by addressing the root causes of abuse and neglect. The provision of in-home services helps a child to remain safely in his or her home.

### Indicator

## Unduplicated Number of Children Served

Children whose families received services in their homes to address concerns related to child safety and well-being during the year.

## **FOSTER CARE - SERVED**

Foster care is meant to be a temporary intervention to assure the safety and well-being of a child. A child who spends long periods in foster care is more likely than other children to drop out of school, have mental health challenges, and experience unemployment and/or homeless as an adult. The following shows the past five years of data regarding children served in foster care during each

## **FOSTER CARE - FIRST TIME ENTRIES**

Data on first time entries provides information on children who have just begun their foster care experience during the past federal fiscal year. How the child welfare system is serving them may say something about current system practice and decision making.

## **FOSTER CARE - RE-ENTRIES**

Data on re-entries provides information on children who come back into foster care because of new or continuing challenges at home. Some children experience numerous foster care episodes or cycle in an out of the system. Others can experience large spans of time between foster care episodes, which is why the age of children who typically re-enter is older.

## **FOSTER CARE - GOALS**

All children in foster care have a court-ordered permanency goal, which directs the efforts of the child welfare agency toward a certain family outcome for each child. This data provides information on the most recent goal for every child served in foster care during the federal fiscal year.

### **FOSTER CARE - EXITS**

Data on foster care exits provides information on children who left foster care during the federal fiscal year, where they went when they left and how long their most recent episode of foster care was. A paramount goal of the foster care system is to assure every child has the lifelong support of a permanent family.

## **FOSTER CARE - REMAINING IN CARE**

Data on children remaining in foster care provides information on children who did not leave foster care during the year but are still in foster care on the last day of the federal fiscal year. This data includes all children in foster care on September 30. Some of these children may have just entered foster care days prior to the end of the fiscal year and others may have been in foster care for many

### **FOSTER CARE - STABILITY**

Every time a child moves, the trauma caused by separation and lack of continuity grows. A child who faces multiple placements struggles to build and maintain healthy relationships and faces academic challenges due to school changes.

#### Indicator

#### **Foster Care Placement Stability**

Children who were in foster care for 12 to 23 months and had three or more placement settings.

	2010			2011			2012			2013			2014	
County	Rural	State												
0.0%	32.7%	37.4%	0.0%	35.4%	36.1%	100.0%	36.7%	36.9%	100.0%	37.4%	34.1%	0.0%	33.7%	32.7%

### **FOSTER CARE - TIMELY REUNIFICATION**

A child's separation from his or her parents or relatives is traumatic for all involved. Minimizing the time a child spends in foster care without compromising safety is key to healthy child development.

#### Indicator

## Timely Reunification with Parents or Relatives

Children who entered foster care for the first time who were reunified with their parents or discharged to relatives within the next 12 months.

		2010			2011			2012			2013			2014	
	County	Rural	State												
0	100.0%	57.3%	46.8%	100.0%	54.9%	48.2%	75.0%	56.0%	44.6%	75.0%	52.1%	41.3%	100.0%	44.2%	39.7%

### **FOSTER CARE - FAILED REUNIFICATION**

A child re-entering foster care following a return to his or her family signals a breakdown in the family and a potential failure on the part of the child welfare system to appropriately address family needs.

#### Indicator

## Failed 1-Year Reunification (Re-entry)

Children who re-entered foster care in fewer than 12 months following reunification with parents or relatives.
