### Indicator

#### Unduplicated Number of Children Served

Children who received services provided to both parents and children to address concerns related to child safety and well-being to enable the children to remain safely in their own home. This includes children whose families were screened-in and/or accepted for services.

## FOSTER CARE - RE-ENTRIES

Data on re-entries provides information on children who come back into foster care because of new or continuing challenges at home. Some children experience numerous foster care episodes or cycle in an out of the system. Others can experience large spans of time between foster care episodes, which is why the age of children who typically re-enter is older.

## FOSTER CARE - STABILITY

Every time a child moves, the trauma caused by separation and lack of continuity grows. A child who faces multiple placements struggles to build and maintain healthy relationships and faces academic challenges due to school changes.

### Indicator

#### Foster Care Placement Stability

Children who were in foster care for 12 to 23 months and had three or more placement settings.

2011			2012			2013			2014			2015			County % Change 2011 to 2015
County	Rural	State	County	Rural	State	County	Rural	State	County	Rural	State	County	Rural	State

## FOSTER CARE - TIMELY REUNIFICATION

A child's separation from his or her parents or relatives is traumatic for all involved. Minimizing the time a child spends in foster care without compromising safety is key to healthy child development.

### Indicator

#### Timely Reunification with Parents or Relatives

Children who entered foster care for the first time who were reunified with their parents or discharged to relatives within the next 12 months.

2011			2012			2013			2014			2015			County % Change 2011 to 2015
County	Rural	State	County	Rural	State	County	Rural	State	County	Rural	State	County	Rural	State

## FOSTER CARE - FAILED REUNIFICATION

A child re-entering foster care following a return to his or her family signals a breakdown in the family and a potential failure on the part of the child welfare system to appropriately address family needs.

### Indicator

#### Failed 1-Year Reunification (Re-entry)

Children who re-entered foster care in fewer than 12 months following reunification with parents or relatives.
