Introduction

Pennsylvania’s Department of Human Services (DHS) is changing which Physical Health Managed Care Organizations (PH plans) are available for Medical Assistance (MA) consumers. This was a competitive process that allowed DHS to improve access to care and the quality of care for MA consumers. This toolkit is designed to provide information to a variety of stakeholders about the PH plans selected through this process.

Important Facts

• The PH plan changes are effective September 1, 2022.

• These changes will impact approximately 500,000 MA consumers who must select a new PH plan by August 16.

• MA Consumers will need to select a new PH plan if they are currently enrolled in:
  › Aetna Better Health statewide
  › Highmark Wholecare (formerly Gateway Health Plan) in the Northwest zone, and
  › United Healthcare in the Southwest and Lehigh/Capital zones.

• Some MA consumers will not need to select a new PH plan, but there will be new choices available for them to consider.

• MA consumers will receive information from PA Enrollment Services that tells them what they need to do and whether they must, or may, choose a new PH plan. These mailings will begin on June 22nd and continue through July 7th.

• If a consumer who needs to choose a new PH plan does not do so by August 16th, DHS will auto-assign them to a PH plan.

• It is vital for consumers to actively choose a PH plan to avoid being auto-assigned to a PH plan that may not include their current providers in its network.

• MA consumers will not lose health coverage if they do not select a PH plan. Coverage will automatically continue under the PH plan they are auto-assigned.

• New PH plan selections are effective September 1st.

• These changes will not impact members in the Children Health Insurance Program (CHIP) or who have Dual Eligible Special Needs Plan (DSNP) coverage, nor will they impact members enrolled in Community HealthChoices (CHC).

• More information is available at dhs.pa.gov/PlanSelection.
