

## 2022 State of Children's Health Counties By the Numbers - Data Sources

### Source

**County Type:** Pennsylvania Partnerships for Children's analysis of 2010 Census population density.

|                                     |   |
|-------------------------------------|---|
| Rural<br>(no urbanized population)  | Bradford, Cameron, Clarion, Clearfield, Clinton, Crawford, Elk, Forest, Fulton, Greene, Huntingdon, Indiana, Jefferson, Juniata, McKean, Mifflin, Pike, Potter, Snyder, Sullivan, Tioga, Union, Venango, Warren |
| Rural-mix<br>(up to 49% urbanized)  | Adams, Armstrong, Bedford, Butler, Cambria, Carbon, Fayette, Franklin, Lawrence, Lycoming, Mercer, Monroe, Montour, Northumberland, Perry, Schuylkill, Somerset, Susquehanna, Wayne, Wyoming                    |
| Urban-mix<br>(50% to 74% urbanized) | Beaver, Berks, Blair, Centre, Columbia, Cumberland, Erie, Lebanon, Washington, Westmoreland, York   |
| Urban<br>(75% or more urbanized)    | Allegheny, Bucks, Chester, Dauphin, Delaware, Lackawanna, Lancaster, Lehigh, Luzerne, Montgomery, Northampton, Philadelphia   |

**Population:** US Census Bureau, 2010 Decennial Census.

**Uninsured:** US Census Bureau, 2021 American Community Survey (1-year estimates)

**By age:** Table B27001

**By sources of coverage:** Table B27010, Medicaid/CHIP: Medicaid/means-tested public coverage only and Medicare and Medicaid/means-tested public coverage

**By Medicaid eligibility:** Table C27016, under 1.38 poverty threshold

**Disproportionality Index:** Pennsylvania Partnerships for Children's analysis of 2020 American Community Survey (5-year estimates), Tables C27001(A-G, I). The index is calculated by comparing the uninsured child count to the total child population of the same race and ethnicity category.

- An index of less than 1.0 indicates underrepresentation of that race category in the uninsured population.
- An index of 1.0 indicates no disproportionality.
- An index of 1.1 and greater indicates overrepresentation of that race category in the uninsured population. For example, an index of 3.0 means the race group is represented in the uninsured population three times its rate in the general child population.

**Medicaid:** Pennsylvania Department of Human Services, Bureau of Program Support (10/14/2022)

**By race/ethnicity:** 10/13/2022

**By age:** 10/14/2022

**CHIP:** Pennsylvania Department of Human Services, Office of CHIP (9/9/2022)

**By category:** 9/9/2022

**By age:** 9/9/2022

**Pennie™:** Pennsylvania Health Insurance Exchange Authority (9/29/2022)

**By race/ethnicity:** 9/29/2022

**By age:** 11/18/2022
