

Medicaid and CHIP Provide Quality Health Insurance for Half of Pennsylvania Kids

At Pennsylvania Partnerships for Children, our goal is for every child to have health insurance that provides regular access to quality medical care for physical and mental health.

Medicaid and the Children's Health Insurance Program (CHIP) play a crucial role in keeping kids covered and healthy in every community across Pennsylvania from our rural communities to large cities.

Through these options, 47% of Pennsylvania kids have access to preventive care like well check-ups and vaccinations, and to ongoing care for chronic conditions such as epilepsy, diabetes, depression, or autism.

More than 1.3 million children – or nearly half of all children in Pennsylvania – are enrolled in Medicaid or CHIP

Impact of H.R. 1 on PA's Budget and Coverage for Families

Deep cuts to Medicaid spending and changes to eligibility rules included in the federal reconciliation bill (H.R. 1) passed in July 2025 threatens to negatively impact Pennsylvania children and their families in the coming years.

Pennsylvania is projected to lose **\$46 billion** in critical federal funding.ⁱ Medicaid cuts will strain the entire health care system.

Approximately **390,000** Pennsylvanians are projected to lose their Medicaid insurance.ⁱⁱ People's health care needs will not change, but now Pennsylvania will have far less money from the federal government to cover them.

It is more important than ever not to lose ground on public health insurance options that help children thrive and build stronger, healthier communities.

As policymakers, we urge you to commit to keeping Medicaid strong for Pennsylvania's working families.

- ✓ **Keep Medicaid funded**
- ✓ **Preserve health care for kids**
- ✓ **Protect core services and PA hospitals**

202	D	Solomon	13,687	1,159	14,846	79%	23%
203	D	Bellmon	11,427	1,467	12,894	73%	20%
		Statewide	1,138,850	171,697	1,310,547	47%	10%

Note: The totals above will not match the counts provided monthly by the Pennsylvania Department of Human Services due to report timing differences and the inability to assign legislative districts to 83 CHIP enrollees. Monthly Medicaid child enrollment includes youth ages 19-20: an additional 101,138 youth ages 19-20 were served in September 2025. CHIP data does not reflect the 3,053 youth who turned 19 in September 2025.
